# PUNTO

## WASTE RECEPTACLE

Elegant, practical, simply good: In classic expression of design, the simple yet elegant CARPO and PUNTO waste receptacles fit perfectly into any design ambience. In addition to the design, the waste receptacles are highly practical, something you will appreciate at the latest when emptying them. The carefully painted galvanised steel waste receptacles stand for value and longevity, just as you would expect from Hess.

Product Description: Frame and container made of steel, galvanised. Disposal opening reduced in size. Container can be tipped forward for emptying. Triangular lock. Insert made of PE plastic or metal. Also available with ashtray as optionally integrated or attached version. Available with flange, embedded base or wall attachment. Capacity: Punto 500 = 32 l, Punto 700 = 45 l
