

SERA 2 – UNPRETENTIOUS, SIMPLE, BEAUTIFUL

The SERA is one of the classics from Hess. Reason enough for us to reinterpret this classic.

With the new SERA 2, we are drawing on the curved, wave-like shape of the classic and thus bringing this classic into the modern age.

In addition to its modern and sleek design, the SERA 2 also offers impressive technical features. This means that the luminaire can fulfil almost any project requirements.

SERA 2: The update of a classic.
Made by Hess.
