

SHADOWLIGHTS

THE STAGE...

...created for attention.

...created for suspense.

...created for imagination and creativity.

A place of a thousand special moments –
characterised and designed by shadow and light!

*"All the variety,
all the charm,
all the beauty of life
is composed of
shadow and light."*

Tolstoy

SHADOW

Let the urban space become the stage of life.

Design that stage with shadow and light -
exciting and dramatic.

Be the director of this outdoor stage.

LIGHTS

From basic illumination that discreetly blends with the surroundings to exciting effects of shadow and light - with SHADOW LIGHTS, all options are open to you.

Nearly hidden light sources do not emit stray light upwards into the sky, meeting "dark sky" requirements. This way, the urban space is designed in a mindful way while atmospheric and astonishing effects are created.

STAGE 1, STAGE 2 and STAGE 3!

SHADOW LIGHTS are available in three variants - transforming any urban space into a stage. Either preset spotlights with a fixed lighting configuration or spotlights individually controlled and aligned referring to the space's needs - it is up to you.
